

DISPLAY GRAPHICS printing materials designed to work with a broad range of inkjet devices, meeting the most demanding printing requirements and assuring successful results with the greatest simplicity. Our display graphics media is designed to deliver consistent performance and true color fidelity to ensure that the job is done right the first time, every time.

Select from:

- Matte Paper
- Photo Paper
- Film
- Pressure Sensitive
- Outdoor Durable
- Canvas

DISPLAY GRAPHICS MATTE PRESENTATION PAPER

PM24 5 mil Presentation Bond

Ideal for 3-D modeling & renderings, mapping, test plots, check plots and Proofing.

CHARACTERISTICS: 5 mil Light weight Bond, resistant to wrinkling, fast dry time, easy to laminate. Compatible with many wide format thermal and piezo ink jet printers.
