

# GEI 4636

This amazing multi-function wide format system is capable of generating 6,000 square feet of uninterrupted printing. This is the flagship of the GEI brand offering speed, customization, high productivity and improved turnarounds with the most compact footprint in its class.

- 8 “D” size prints per minute – 600 dpi
- Backlit touchscreen control panel
- Front print delivery holds up to 100 sheets
- Convenient face-up scanning

Number	Product Description	Shipping Weight	MSRP
412262	GEI 4636 Digital Plain Paper Copier	507 lbs	\$26,490.00
412416	Internal Scanner Option (1)	1 lb	\$1,050.00
412264	Additional 2 roll feeder (2)	150 lbs	\$3,150.00
412266	Paper Cassette (3)	164 lbs	\$2,630.00
412397	External Print Controller (4)	1 lb	\$3,300.00
412398	External Scan Option (5)	1 lb	\$2,030.00
412399	External PostScript Option (6)	1 lb	\$2,060.00
412400	External CGM Option (7)	1 lb	\$1,420.00
414442	External DWG/DXF/DWF Option (8)	1 lb	\$2,450.00
410844	Roll Holder (9)	2 lbs	\$155.00
410842	Original/Copy Catch Tray (10)	15 lbs	\$685.00
411264	IEEE 1394 (Fire wire) Interface Board (11)	1 lb	\$500.00
414525	IEEE 802.11B Interface Board (12)	1 lb	\$395.00
412152	Data Overwrite Security System (13)	1 lb	\$420.00

## Consumables

Number	Product Description	MSRP
888029	Toner, 1-800 gram cartridge	\$160.00
888114	Developer, 1 bag (NOTE: 2 bags are required at installation)	\$100.00
4636START	Startup Kit for GEI 4636, includes; 2 Toner Cartridges, 2 Bags of Developer and 1 Carton (2 rolls) of 36” x 500’ Bond	\$604.35
BP2036500	36” x 500’ media roll - 1 Carton (2 rolls)	\$86.55
BP2034500	34” x 500’ media roll - 1 Carton (2 rolls)	\$82.66
BP2030500	30” x 500’ media roll - 1 Carton (2 rolls)	\$75.00
BP2024500	24” x 500’ media roll - 1 Carton (2 rolls)	\$56.66
BP2022500	22” x 500’ media roll - 1 Carton (2 rolls)	\$53.21

*All media rolls are 20lb xerographic bond/ 3” core/ untaped*

## Installation, Professional Services & Maintenance

Number	Product Description	Base	Plus Meter
SVC4636	12 month full service maintenance agreement, includes all parts, labor and travel	\$708.00 per year =\$59.00 per month	.08¢ per linear foot
4636PS	12 month software service pack releases & telephone support for Controller	\$360.00 per year =\$30.00 per month	
INS4636	4636 Digital Engineering Plain Paper Copier Installation without Controller	\$695.00	
INSC4636	4636 Digital Engineering Plain Paper Copier Installation with Controller	\$1,095.00	
WF-RCT	Professional Services/ Training at time of installation	\$500.00	

*Remote locations subject to additional fees.*

## GEI 4636 Notes:

1. The internal scanner option allows scanning to email or folder directly from the copier. Not used with External Controller Option.
2. Can increase the capacity from standard 2 rolls to a 4 roll system.
3. Can add 2 cassette trays to hold up to 18" x 24" cut sheet paper instead of using a 4 roll configuration.
4. Provides printing capability to the copier. A PC server is needed and must be purchased separately. See note 14 below for the minimum specifications for the server.
5. External Scan Option is only a paper "Tan" coupon. DO NOT LOSE IT or pay full price for a replacement.
6. External PostScript Option is only a paper "Tan" coupon. DO NOT LOSE IT or pay full price for a replacement.
7. External CGM Option is only a paper "Tan" coupon. DO NOT LOSE IT or pay full price for a replacement.
8. The External CWG/DXF requires the External Print Controller. Allows printing of AutoCAD documents without the application and allows scanning to DWF when purchased with the scan option.
9. Roll holders are interchangeable among all GEI branded products. They provide additional flange inserts for additional rolls of media stock.
10. The rear catch tray is an adjustable tray and can be used with the 2900 and 4636 to catch originals or copies.
11. Used with the internal scanner for faster (up to 400 MBPS) than the standard 10/100 Base T (230 KPS) that comes standard. Only for scanning not printing.
12. Supports wireless network environments. Maximum data throughput 11 KPS. Cannot be used concurrently with 10/100 Base T. Supports scanning only not printing.
13. Erases temporary data in the copier HDD by overwriting it. Data overwritten: copy jobs, scanned files send by e-mail or to a folder, documents sent or received by Web Image Mailer, Desktop Binder Lite, or scan router, temporary data that remains in the document server after the user erases the document from the server.
14. 90 day warranty includes parts, labor, and travel.

### **Purchased separately, PC Server must meet minimum specs:**

Operating System: Windows 2000 Professional SP# or Windows XP Professional SP1

Processor: Pentium 4, 1GHz or higher

PCI: 2.0 or higher x 1 slot (with 3.3V or 5V auto adaptive)

System Memory: at least 512MB RAM

HDD: at least 10 GB

Network Interface: 10/100 baseT Ethernet, TCP/IP configuration

Monitor: at least 17" with 1024 x 768 pixel resolution

Keyboard & Mouse
