Océ PRO SELECT FILMS

**Glossy White Film with Gray back
PSPOPUP 7 mil Polyester (PET) White Film with Gray back**

APPLICATION: Tradeshow Displays, Popup Banners.

CHARACTERISTICS: PSPOPUP'S ultra durable construction features a no-tear base, engineered to withstand repeated rolling for portable display units. The gray opaque back eliminates image washout caused by light diffusion. PSPOPUP features a microporous, water resistant, high gloss photographic top coat for outstanding "color pop" and drastically improved drytime.

**Premium Backlit Film
PSBCKLIT 6.5 mil Polyester (PET) Universal Backlit Film**

APPLICATION: Backlit Displays, Window Graphics, Tradeshow Displays.

CHARACTERISTICS: 6.5 ml fast dry, matte surface, front-print PET backlit film. PSBCKLIT is specially engineered to create even light diffusion and maximum image density either frontlit or backlit. The matte surface reduces the impact of fingerprints for easy handling from printing to installation. When printed with an Océ custom profile, PSBCKLIT optimizes natural skin tones, expanded shadow detail, smooth gradient blends and neutral grays.
